

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	29-06-2026
Team ID	23A51A05P1
Project Name	Employee ID Card Request
Maximum Marks	4 Marks

Functional Requirements

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Employee ID Card Request	Enter Employee Name Enter Department Select/Enter Reason for Request
FR-2	Request Submission	Submit Employee ID Card Request Generate Request (REQ) Generate Requested Item (RITM)
FR-3	Approval Management	Route request for approval Approve or Reject the request Update approval status
FR-4	Email Notification	Send approval confirmation email Notify employee after approval
FR-5	Catalog Task Management	Create Catalog Task (SCTASK) Assign task to Admin Team Track task status
FR-6	Request Tracking	Store request details Maintain request history Track request and task records

Non-Functional Requirements

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should provide a simple and user-friendly interface that enables employees to submit ID card requests easily.
NFR-2	Security	Only authorized users should be able to access, approve, and manage requests using role-based access control.

NFR-3	Reliability	The system should reliably process requests, approvals, email notifications, and catalog task creation with minimal errors.
NFR-4	Performance	The request submission and workflow execution should be completed within a short response time.
NFR-5	Availability	The application should be available through the ServiceNow cloud platform whenever users need to submit or process requests.
NFR-6	Scalability	The solution should support an increasing number of employee requests without affecting overall system performance.
